CAREER SUMMARY

Software Engineering (Honours) student at the University of Adelaide with strong problem-solving skills and a passion for creative, logic-based approaches to technical challenges. Proficient in Python, Dart/Flutter, C++, and embedded systems, with hands-on experience in game development, data analysis, and real-time applications. Committed to continuous learning and practical application of software solutions to real-world problems. A strong communicator and effective collaborator in team environments, boasting fluency in English, Arabic and Japanese.

EDUCATION

Bachelor of Software Engineering (Honours), University of Adelaide
2023 - Present

South Australian Certificate of Education (SACE), Plympton International College
2021 - 2023

EXPERIENCE

Part-Time Software Developer, Robinson Aerospace Systems
Nov 2024 - Present

- Contributed to the development of RASCube's satellite control page using Dart and Flutter.
- Implemented real-time satellite tracking map functionality and dynamic, resizable, and reorderable data windows.
- Played a key role in building a global satellite map system, visualizing status with time-based markers.

Academic & Personal Projects, University of Adelaide
2023 - Present

- Created several games (Space Invaders, Tank Battle, Platformer) using Python and Pygame.
- Visualized Fibonacci sequences and mathematical concepts using Python's Turtle library.
- Built an Android location app in Flutter that uses live GPS coordinates with Google Maps integration.
- Simulated gravitational interactions in 3D using MATLAB.
- Debugged STM32 microcontroller projects using CubeIDE and onboard debugger tools.
- Collaborated on a full-stack website for managing volunteer events, including RSVP and user profiles.
- Delivered a team presentation on agile methodology in large-scale software systems.
- Developed a remote workflow for coding from iPad using SSH and a mesh VPN to access a PC running Ubuntu Server.

TECHNICAL SKILLS

Languages: Python, Dart, C++, C, MATLAB

Frameworks & Tools: Flutter, GameMaker Studio 2, STM32 Cube IDE, Git, Visual Studio Code, Sublime Text

Systems & Platforms: Ubuntu Linux (WSL), Arduino, STM32 MCUs

Key Concepts: Object-Oriented Programming, Embedded Systems, Game Development, Data Analysis

Other Tools: Git Bash, tig, version control workflows, SSH, Mesh VPNs

Editor Proficiency: Advanced knowledge of Vim and Neovim

Languages Spoken: English (Fluent), Japanese (Fluent), Arabic (Fluent)

Soft Skills: Public Speaking, File & Project Organization

EXTRACURRICULAR ACTIVITIES

Osama Zaid

0434 044 360 | abdalghanyosama@gmail.com | linkedin.com/in/osama-abd-alghany-a08877235

Member - Adelaide University Computer Science Club (2023 - Present)

- Supported first-year students with programming projects and game development.
- Attended networking events with industry professionals.

Member - Adelaide University Japanese Club (2024 - Present)

- Practiced conversational Japanese through regular interaction with native speakers.
- Reached intermediate conversational fluency through consistent participation.

Member - University of South Australia Japanese Club (2024 - Present)

REFeree

Dr. Amali Weerasinghe

Course Coordinator, University of Adelaide
